Macleod Trail / 162 Avenue Interchange – Construction Notice #11

Major closure of 162 Avenue and Sun Valley Blvd. – Aug. 11-14, 2017

A major closure of 162 Avenue and Sun Valley Blvd. across Macleod Trail will take place the weekend of August 11 to 14. The closure will begin following the evening rush hour at 7:00 pm on Friday, Aug. 11, and then re-open to traffic early in the morning of Monday, Aug. 14, before the morning rush hour.

The closure is necessary to allow crews to change over from the temporary detour (in place since October 2016) and to prepare for opening of the final Diverging Diamond Interchange (DDI) layout this fall. During the closure, 162 Avenue and Sun Valley Blvd. will be closed between Shawville Blvd. and the Midpark Blvd./Sunpark Dr. intersection. All access ramps to and from Macleod Trail will also be closed during this period, with traffic re-routed to the nearby Shawnessy Blvd. and Stoney Trail interchanges. **East-west access across Macleod Trail will remain available for pedestrians, cyclists and emergency vehicles.**

The pedestrian pathway on the south side of 162 Avenue/Sun Valley Blvd. will be temporarily closed and pedestrians and cyclists will be re-routed to the north side of 162 Avenue/Sun Valley Blvd. Detour maps will be posted along this new route.

The attached diagrams provide more details on the closures, restrictions and detours. The project webpage, www.calgary.ca/macleod162ave, will be updated on a regular basis with details of the construction impacts, along with information about the DDI interchange configuration. Because some transit routes will be detoured during the closure, transit riders are encouraged to watch for detour notices posted at local bus stops, or visit the Calgary Transit website, www.calgarytransit.com, for information.

Final Stage of Road Construction – Aug 14 - Sept 4, 2017

Following the major closure, the interchange will operate in the new DDI design. The new access ramp from southbound Macleod Trail to the Shawnessy Shopping Centre will also be opened, providing motorists with a direct access to the southern part of the shopping centre. The intersection at Sunpark Gate and Sun Valley Blvd. will also open to all turning movements again.

Additional closures and road construction activities will continue to take place through the remainder of August and into September in order to complete the roadway. **This will be the last major stage of road construction for this project.**

In particular, following the opening of the DDI on August 14, the northbound exit from Macleod Trail to 162 Avenue/Sun Valley Blvd. will remain closed for an additional two weeks in order to allow crews to remove and re-build the former detour ramp in the southeast corner of the interchange. Traffic will be detoured to the nearby Shawnessy Blvd./Midlake Blvd. exit instead. Crews will be working around the clock to complete the ramp and re-open it to traffic at the earliest possible opportunity.
Routine daily lane closures will also continue to take place during off-peak hours along 162 Avenue and Sun Valley Blvd. to allow crews to complete concrete and paving work for the roadway. Motorists are requested to obey all signage and remain aware that the interchange is still an active construction zone.

Pedestrians and cyclists will be re-routed to the north side of 162 Avenue/Sun Valley Blvd. The southeast island at Shawville Blvd/162 Avenue intersection will be temporarily closed. Detour maps will be posted along the pedestrian routes.

Transit will continue to operate throughout construction, with some routes detoured due to the closure of the northbound exit from Macleod Trail. Transit riders are encouraged to visit the Transit website, www.calgarytransit.com, for information on bus route detours.
