

2017 Ward 13 Update – Sept 11, 2017

Location	Action
Woodfield Rd & Woodfield Dr	Reviewed request to extend playground zone – was not recommend. Reviewed sight line issues – requested Urban Forestry trim tree blocking yield sign eastbound. <b>Sheena to has included a sketch of the parking restriction.</b>
Shawnee Dr & 6 St	This location is getting RRFB. <b>Cul-de-sac signs will remain in place per discussion with ward.</b> <b>Installation of RRFB planned and will monitor from there.</b>
Woodpark Blvd & Woodfield Rd	Volumes are too low for a multi-way stop here. Adding it would increase delay in all directions.
24 St north of Woodpark Blvd	Adding parking would remove capacity from the roadway. Traffic to review whether this is technically feasible. <b>TCP to look further into off-peak parking.</b>
Elbow Dr near Cantabrian Dr	SLOWS trailer is scheduled for Aug 10-24. Need to advise CA.
Canterbury Dr	A request for traffic calming has not been sent to TP via 311.
130 Ave between 6 St & Cantrell Dr	Scheduled for paving in 2018. Can request WCRs as part of this, especially on east side of 6 St. Driveways provide challenge for 200 Canniff Pl. <b>Will be included in future years for assessment</b>

SLOWS Trailer Locations – updated/planned locations below:

SLOWS Trailers Rotation List 2017
